New Outlook in Chemistry.

As is well known, the logical process of inductive reasoning based upon carefully planned experiment is relatively a new manifestation of the power of the human intellect. The philosophers of old imagined, observed and reasoned, but neglected experimentation; the artisans, who alone came into close contact with realities, were unable except in the crudest fashion to generalize concerning their results. Because of this separation of thought and deed, man's knowledge of his environment remained for thousands of years in a wholly undeveloped state. From this dormant condition natural science emerged but slowly, although with steadily increasing pace. Little by little, in spite of occasional pauses of inactivity, or apparent forgetfulness, human acquaintance with the fundamental laws of the universe has grown. Each century has added something to the total, says the Harvard Graduate Magazine; and usually each century has added more than any century before. What a contrast such a development presents to that of sculpture, for example, which reached nearly if not quite its highest point of perfection more than 2,000 years ago. In chemistry especially has the acceleration been great; and the effect of recent growth is so remarkable that, looking back, one is inclined to deny the existence of any real science in chemistry a century and a half ago. If the accumulation of chemical knowledge is depicted diagrammatically in relation to the progress of time, measuring one in the vertical and the other in a horizontal direction, an upward-pointing curve with steadily increasing inclination is obtained. The curve stops at the present day; but unless a cataclysm annihilates the earth's population and its libraries, this line is bound to be continued. Whither will it lead? What further insight into his own constitution as well as that of his environment may man attain? The answer to these questions is fraught with weighty significance as regards the future of the human race.

A Good Word from Panama.

Leroy Park, European agent for the Isthmian canal commission, replies to some allegations regarding Spanish laborers employed on the Panama work, and incidentally gives interesting information as to conditions generally in connection with the enterprise. He states from personal knowledge that the Spanish laborers are well cared for, and he cites an official report from the Spanish consul at Panama showing, as a result of the consul's investigation, that the quarters of the laborers are entirely satisfactory, that the food is abundant and of good quality, and that those who are going to the isthmus are taking their wives and children with them, in full confidence that they will be safe, happy and contented. Mr. Park states that there are now 43,000 laborers on the isthmus, and that more will come from Europe with the beginning of the dry season. It is evident that the big undertaking is being pushed as rapidly as is consistent with effectiveness.

The immigration question has many sides, and while some objectionable persons may manage to obtain access to this country, it is evident that the great bulk of the new arrivals is composed of desirable elements. In fact, it is certain that, enormous as is the influx, aggregating nearly a million and a half yearly, it is not sufficient to meet all labor demands. The bureau at Washington having the matter in charge is informed that 250,000 immigrants can be placed at once in localities where workers are urgently needed, and that three states are seeking settlers and could readily accommodate at least 1,000,000. This is still the land of promise to the honest and industrious alien who desires to better his condition.

Caran d'Ache, a French caricaturist, has invented a toy which bids fair to be as popular in Europe as the Teddy bears are in America. It is a wooden dog painted in fantastic fashion. The dog—he is not always of the same breed—was intended as a plaything for children, but the Paris women have taken such a fancy to it that 40,000 are working every day turning out the quaint animals, and the inventor is getting rich.

One hundred and forty million dollars will have to be raised by taxation to pay the expenses of New York next year, according to the estimates made by the boards of the various departments of the city government. This is an increase of \$40,000,000 in less than ten years.

The statement that the winter will be a warm one does not bring much comfort to the average woman, as the price of furs is just as high as usual, and the furs are just as becoming.

The man found of nice distinctions will now have work for some time on his hands—or, to speak more properly, on his brains—trying to give the nation the proper line to be drawn in differentiating a minkskin, the newly defined species of the genus homo, from the class of mulleedoodles.

The American Bankers' association wants to have our bank notes printed in bright tints. In that case it will mean something when a man asks to see the color of your money first.

BIG KENTUCKY FLOP

BLUE GRASS STATE GOES RE-PUBLICAN, CHOOSING WILLSON AS GOVERNOR.

JOHNSON IS REELECTED

Defeats Congressman Burton for Mayor of Cleveland—Hearst Party Is Soundly Whipped by Tammany in New York.

Washington.—Six states elected governors Tuesday and eighteen cities mayors. Even for an "off-year" the election was unusually devoid of features, but Kentucky furnished a sensation by swinging into the republican column by pluralities of the state candidates ranging from 5,000 to 10,000. The republicans also carried the city of Louisville by 3,500 majority for their mayoralty candidate. Results of the governorship elections were as follows:

Kentucky—A. E. Willson, republican; estimated plurality 14,000. Massachusetts—Curtis Guild, Jr., republican; plurality, 104,357. Maryland—Austin L. Crothers, democrat; plurality, 4,341. Rhode Island—J. H. Higgins, democrat; plurality 2,307 with all but one district in the state heard from. New Jersey—J. Franklin Fort, republican; estimated plurality 7,500. Mississippi—E. F. Noel, democrat. The democrats had no opposition, the election being a mere formality. Besides the election for governor a state treasurer was chosen in Pennsylvania. John O. Sheatz, republican,

Mayor Tom L. Johnson.

being elected by 142,000 majority over his democratic opponent.

Results of the mayoralty elections were as follows:

San Francisco, Cal.—E. R. Taylor, Dem. and Good Government league. Cleveland, O.—Tom L. Johnson, Dem.

Cincinnati, O.—L. Markbreit, Rep. Louisville, Ky.—J. F. Grinstead—Rep.

Toledo, O.—Brand Whitlock, Ind. Salt Lake City, Utah—John S. Bransford, anti-mormon. Tammany Again Tastes Gore. New York.—The Tammany Club of Greater New York has been largely favorable to the democrats. New York county (Manhattan and the Bronx) went overwhelmingly for Tammany, Thomas F. Foley for sheriff, the head of the ticket, having a plurality of 26,723 over M. F. Ihmsen, independence league and republican, in a comparatively light vote. The fusion between the republicans and the independence league was a failure, except in the cases of a few minor officials.

Tom Johnson's Plurality 9,313. Cleveland, O.—Complete returns give Tom Johnson (Dem.) for mayor, 48,329; Theodore E. Burton (Rep.), 39,026. Johnson's plurality is 9,303. The entire Democratic ticket was elected with the exception of police clerk.

The city council will stand 25 Democrats to 7 Republicans. Following the reelection of Mayor Johnson, the Cleveland Electric Railway company resumed selling tickets at the old rate of 11 for 50 cents. For a month prior to the election the company sold tickets at the rate of seven for 25 cents, upon which basis it asked a renewal of its franchise. Mayor Johnson was elected upon a straight three-cent platform.

Whitlock Wins in Toledo. Toledo, O.—Mayor Brand Whitlock was elected here by majorities running from 7,000 to 2,000. R. A. Bartley, Republican candidate for mayor, polled a good vote.

Pros Win in Illinois. Springfield, Ill.—Prohibitionists are jubilant as a result of Tuesday's election in Illinois, 16 counties so far as known having put themselves on record for the exclusion of the licensed saloon. This was the first test of the new local-option law made in counties not under township organization, and the result was a distinct lull to the liquor element. Seven counties went absolutely dry.

Results Shown by Table. The results of the vote on prohibition are shown as follows:

TOWNSHIPS VOTING ON LOCAL OPTION.

Counties—Dry Wet	Counties—Dry Wet
Calhoun 5	Pope 13
Cass 11	Pulaski 8
Edwards 1	Scott 8
Johnson 12	Union 1
Massac 9	Wabash 17
Menard 7	Williamson 24
Morgan 15	
Perry 6	Totals 119 10

Counties totally dry: Edwards, Johnson, Massac, Pope, Union, Wabash and Williamson.

Cossacks and Peasants Fight. Elizabethgrad, Russia.—In a collision between peasants and Cossacks while the recruits were being summoned to the colors Wednesday at Goltz near here, several men were killed or wounded on either side.

Medals for Two Americans. London.—The Royal Society has awarded the Copley medal to Prof. Albert A. Michelson, of the University of Chicago, for optical investigation, and the Davy medal to Prof. E. W. Morley, of West Hartford, Conn.

NOT HOLDING ON TO MONEY

NEW YORK BANKS TRYING TO SUPPLY THE COUNTRY.

Aiding West and South—Gold Imported from Europe Well Distributed.

New York.—The leading New York banks were exerting themselves actively Friday to meet the demands of their country correspondents and depositors for currency. They declare that the suggestions made from several western sources that they are not meeting legitimate demands for currency from the west are entirely unfounded and that they are, on the contrary, taking every practicable measure to aid the west and south.

One of these large banks, with several thousand correspondents, has depleted its reserve by about a quarter during the last few weeks to supply currency where it is most needed, and has made large shipments to banks in San Antonio, Galveston, Memphis, Mobile, Atlanta and other southern points. The country banks have been allowed to draw down their balances to a point which affords in many cases hardly more than enough to meet the drafts sold in the ordinary course of business. They have brought paper for rediscount to their New York correspondents in large amounts and the principal difficulty of the New York banks has come from the demand for currency to be shipped against the balance created by these rediscounts.

It is admitted that the cotton movement is seriously checked by the lack of small bills and silver to pay the small grocers and by the inability of the southern banks to handle the immense volume of business accumulating at southern points. The grain shipments are in better shape, owing to the gold secured by the banks of Minneapolis for paying cash in New York on grain bills.

The stream of surplus gold pouring into New York has not been halted here to meet local demands, but is being allowed to flow through the financial arteries of the United States and relieve the needs of agriculture and other industries generally. Gold importers state that nearly all of the \$21,000,000 which has already reached here will soon find its way to every quarter of the country.

SANTA FE FINED \$330,000.

Read Found Guilty of Rebating Receives Its Punishment.

Los Angeles, Cal.—Judge Olin Wellborn in the United States district court Thursday fined the Atchison, Topeka & Santa Fe company \$330,000 for rebating. The fine was what the court denominated "an intermediate penalty," the maximum which might have been assessed being \$1,320,000 and the minimum \$66,000.

The Santa Fe company was convicted on October 11 last by a jury in the federal court of granting rebates to the Grand Canyon Lime and Cement company of Arizona. It was found guilty of all the counts charged in the indictment, and the court ordered the company to pay \$330,000 and to give up its rebates to the Grand Canyon company.

Los Angeles, Cal.—Following close upon the heavy fine imposed upon the Santa Fe Railroad company by Judge Wellborn in the federal district court, United States District Attorney Lawler announced Friday that he would proceed at the coming January term of court to prosecute the road upon the remaining indictment of ten counts charging rebating.

FORMER BANKER IS SENTENCED.

F. J. Tygard of Butler, Mo., Given Five Years in Penitentiary.

Kansas City, Mo.—F. J. Tygard, president of the Bates National bank of Butler, Mo., when it failed September 29, 1905, was sentenced Wednesday to five years in the penitentiary by Judge McPherson in the federal court. The conviction was on the charge of misapplying funds of the bank.

Mr. Tygard is past 70 years of age and is physically paralyzed. He pleaded guilty to the charges and was given the minimum sentence. Judge McPherson intimated that if application was made for pardon it might be favorably considered on account of the prisoner's age and condition.

EARTHQUAKE AT UNALASKA.

Submarine Disturbances Cause New McCullough Peak to Subside.

San Francisco.—Capt. Tilton of the whaler Herman, which arrived in port Friday morning from the Arctic, reports that a terrific earthquake occurred at Unalaska about a month ago and that McCullough peak, which was created by an earthquake nearly a year ago and extended over 3,400 feet above the sea, has dwindled to almost nothing as a result of submarine disturbances.

Aged Couple Killed by Train.

Ashabula, O.—Charles Frary and his wife, an aged couple of Saybrook, O., were killed by a Lake Shore passenger train near here Friday. They were driving home and were struck while crossing the tracks.

New Counterfeit \$10 Bank Note.

Washington.—Chief Wilkie of the secret service reports the discovery of a new counterfeit ten dollar national bank note. The counterfeit is on the Wells Fargo Nevada National bank of San Francisco.

Spokane "Lid" Fight Is On.

Spokane, Wash.—Warrants were issued by Justice Hinkle Thursday for the arrest of 187 saloon men of Spokane, charged with keeping open on Sunday in violation of the local Sunday closing ordinance.

Big Fire in Oneonta, Ala.

Oneonta, Ala.—Fire, which broke out shortly after noon Thursday in the Guthrie hotel, destroyed the hotel, ten stores and a livery stable before it was controlled. The loss is estimated at \$15,000.

ANOTHER INTERNATIONAL BALLOON RACE.

JOSEPH H. CHOATE CHOSEN

ELECTED PRESIDENT OF CIVIL SERVICE REFORM LEAGUE.

Resolutions Adopted Commending Roosevelt and Urging Congress to End Patronage Distribution.

Buffalo, N. Y.—The annual meeting of the National Civil Service Reform league practically ended Friday afternoon. A brief informal session will be held Saturday, after which the delegates will visit Niagara Falls.

Joseph H. Choate was elected president and resolutions were adopted commending President Roosevelt for "determined and effective enforcement of civil service laws and rules," and expressing satisfaction that congress gives evidence of stronger support of the principles of the merit system.

The resolutions urge congress to take further steps to relieve its members entirely from the "unprofitable labor of distributing patronage," and urges the president and congress to provide for competitive classification of assistant postmasters, pension examining surgeons and fourth-class postmasters; also to provide that all other postmasters and all collectors of customs and internal revenue shall be appointed by promotion, thereby abolishing the present practice of appointing inexperienced persons.

The president is urged to "make such amendments to the civil service rules as will reduce to the minimum the practice of making special exceptions thereto." The policy of placing Indian agents in charge of an apportioned classified under the competitive system is approved.

HITCHCOCK BACK ON STAGE.

He and Wife Weep When Audience Cheers Him.

New York.—Raymond Hitchcock, who gave himself up to the authorities Wednesday, reassumed his role at the Astor theater Wednesday night and was given a demonstrative welcome. The actor looked haggard and ill, and his voice was uncertain as he spoke his lines. Meantime, his wife, who plays opposite him, was in tears and with difficulty followed her cue.

At the end of the second act the comedian stepped to the front of the stage and in a tremulous voice said: "I want to thank you all for your applause and encouragement. I hope I shall always deserve it."

Upon Mrs. Hitchcock's second entrance the action called upon her to shake her husband's hand. As they stood there with hands clasped the cheers were deafening, and for a moment both performers seemed unable to continue. Then Miss Zabell placed her unengaged hand on her husband's shoulder and kissed him. At this Hitchcock broke down completely and there were a good many wet eyes in the audience, too.

To Drop Their Quarrels.

Managua, Nicaragua.—Presidents Zelaya of Nicaragua, Davila of Honduras and Figueroa of Salvador were in conference Wednesday at Amapala for the purpose of consolidating peace in Central America. They agreed to forget past differences and declared that fraternal relations existed mutually and that previous treaties of friendship were in force.

New College Buildings Dedicated.

Kankakee, Ill.—The new buildings of St. Viator's college, built to replace those destroyed by fire two years ago, were dedicated at Bourbonais Grove, a suburb of Kankakee.

Shocking Suicide of Woman.

New York.—Crased by the death of her mother, Miss Helen Schwab, 23 years old, drank a half pint of poison, and then cast herself from the roof of the seven-story apartment house in West One Hundred and Fourteenth street, where she lived, last Friday. She was almost instantly killed.

Warehouse Burns; Two Missing.

St. Paul, Minn.—The warehouse of the Northern Copperage company was destroyed by fire Friday night. Two men are missing.

Goes Insane in Courtroom.

Columbus, O.—George Hamilton Phelps, a prominent attorney of Findlay, O., created a scene in the supreme court Thursday when his mind suddenly gave way while he was arguing the case of the Amity Oil company against E. V. Wyssrod and others.

Department Store in Trouble.

Providence, R. I.—A petition in bankruptcy against the O'Gorman company, proprietor of the largest department stores in the city, was filed in the United States circuit court.

GREAT FIRE IN SUPERIOR.

Flames on Docks Destroy Property Valued at \$400,000.

Duluth, Minn., Nov. 9.—Fire which originated in elevator "A" of the Great Northern railroad in Superior, containing 600,000 bushels of grain, spread quickly, and before it was got under control destroyed property valued at \$400,000.

The elevator was owned by the Great Northern railroad but was leased to the A. D. Thomson Grain company of Duluth. The sparks soon ignited the Grand Republic mill on Tower Bay slip, the great Lakes Dredge & Dock company dock and the Duluth-Superior Storage company which contained the finishing plant of the Webster Chair company.

The fire started at the southwest corner of the elevator "A" dock and before it was noticed had communicated to the elevator. An alarm was turned in and four fire tugs responded, but owing to the intense heat they were driven out of the slip and devoted all their energies to saving the adjoining property. The steamers W. A. Parent and W. A. Rogers were in the elevator "A" slip loading wheat and the latter was to take out 300,000 bushels of wheat Saturday. The steamers Ute, Alva and Chili were on the opposite side of the slip at a merchandise dock and were pulled out by tugs to save them from destruction.

The following structures were destroyed: Two Great Northern elevators, Minnesota flour mill and elevator, Freeman mill and elevator, Grand Republic mill and elevator, Commander mill and elevator, 20 dwellings, and several small warehouses lining the bay front.

GAVE HIS LIFE TO SAVE TOWN.

Heroism of Mexican Engineer in Explosion at Nacozari, Ariz.

Douglas, Ariz.—The death list as a result of the Nacozari explosion Thursday is now placed at 14 or 15, all Mexicans, beside John Chisholm, aged 13, who was riding on the train when the explosion occurred.

A train on the narrow gauge railroad to the Pilares mine in some way caught fire. In the train were two open cars heavily loaded with explosives, and the fact that the concentrator and a good part of the town of Nacozari were saved from ruin was due to the bravery of the Mexican engineer of the train, Jesus Garcia. Realizing that to cut out the burning cars and to escape on the engine would expose the town to probable destruction, he called to the rest of the crew to jump and started to run the train away from the town. He had taken it about a half mile when the explosion occurred and he was blown to atoms. It is reported that another member of the crew stayed with him and was killed. The heavy death list is due to the fact that the explosion occurred just as the train was passing a section house in which were a number of section men.

Convicted for Suicide Pact.

Liberty, Mo.—The jury in the case of Jesse B. Webb, charged with the murder of Inez Walkup, with whom he had been living, brought in a verdict of manslaughter in the fourth degree Thursday, fixing the punishment at eight years in the penitentiary. The couple had entered into a suicide pact and Webb declared that the woman shot herself, while the state sought to prove that Webb shot her and then slightly wounded himself. The tragedy occurred in a hotel room in Liberty.

Fatal Fire in Charleston, W. Va.

Charleston, W. Va.—The four-story building occupied by the wholesale grocery firm of Ruffner Bros. was destroyed by fire Friday evening, a loss of \$200,000 with insurance of \$100,000. Capt. J. E. Foley of the fire department and John Dewey, shipping clerk, were burned to death.

Rear Admiral Lyon Retires.

Washington.—Rear Admiral Henry W. Lyon retired from the navy Friday on account of having reached the age limit of service.

University Safe Is Cracked.

St. Paul, Minn.—Cracksmen blew open the safe in the vault at the University of Minnesota Wednesday night, thinking the \$28,000 taken in at the Minnesota-Chicago football game was still in the safe. It had been removed.

Stock Exchange Seat Sells Cheap.

New York.—A seat on the New York stock exchange was sold Thursday for \$60,000, the lowest price recorded since 1904, when a seat was disposed of for \$57,000. The high record price was \$95,000.

TRIPLE MURDER MAY BE SOLVED

MATRESS SOAKED WITH BLOOD AND OTHER SIGNS OF GHASTLY CRIME

DISCOVERED IN A RAILWAY HORSE CAR

It Is Thought the Police Will Be Able to Run To Earth a Gang of Desperate Thieves and Murderers.

South Bend, Ind., Nov. 11.—Through the accidental discovery of evidence in a horse car at Buffalo, N. Y., the police of South Bend believe the mystery surrounding the death of three men within a week along the Lake Shore railroad in Northern Indiana will be solved, and that they will be able to run to earth a gang of desperate murderers. The victims are:

A. W. Murphy, aged 40 years, Colorado Springs, Colo., killed at South Bend.

Ralph Kyle 20 years, Edgerton, O., killed near Goshen, Ind.

Henry Rank, aged 60 years, Berrien county, Michigan killed at La Porte, Ind.

A mistake in switching a horse car containing four horses into Buffalo instead of sending it on to New York city, its destination, and the subsequent discovery that the horses were without an attendant, led to an investigation which developed the gruesome facts.

When the car was forced open the trainmen found the floor covered with blood, the mattress which had been used by the occupant of the car for a bed soaked with blood, and a hammer which was stained with blood and on which was a bunch of matted hair.

Harry Lewis, live stock superintendent of the Lake Shore, immediately made an investigation, and learned that up to the time the car reached South Bend, A. W. Murphy was in charge of it. He then learned from the local police of the finding of Murphy's body at the Robertson street crossing of the Lake Shore.

The mystery of Kyle's death was thought solved last Monday, when the police put Pearl Maines, of Chicago, through a sweating process. The latter acknowledged being with Kyle when he met his death, and stated that he fell from the car when he attempted to catch his hat, which the wind had blown from his head. This explanation, however, is doubted.

The third killing occurred at LaPorte last Tuesday, when the body of Henry Rank, of Berrien county Michigan, was found. At the time it was supposed that he had been struck by a Lake Shore train, and the coroner's verdict was to that effect.

CHILDREN AND SERVANTS

Rescued From Burning Residence By Chief of Armour Concern.

Chicago, Ill., Nov. 11.—Arthur Meeker, who in every day life as general manager for Armour & Co., has been in command of many commercial battles, was called upon to battle with a fire in his home, 1815 Prairie avenue. He became the leader in saving his four children and the house servants from the flames. He himself rescued three of the children and a governess saved the fourth.

The fire, which caused damage estimated at \$25,000, was discovered by Miss Udell at 2 o'clock. The nurse on the third floor had been awakened by the coughing of two of the children, Arthur, Jr., and Mary, who were asleep in the room. The smoke from the blaze had irritated their throats. Their coughing probably saved the lives of the whole family. Mr. Meeker and the governess lifted them from their cot and bore them from the room, the father carrying Arthur, Jr., and the governess the little girl. Katherine and Grace were sleeping in a room on the second floor, and the father bore both of these in his arms at one time.

Entombed 100 Feet Below Surface.

Mahoney City, Pa., Nov. 11.—Down in the depths of Draper colliery, several hundred feet under the surface and almost directly under his own home, Michael McCabe, 30 year old, of Gilberton, is entombed. He is behind thousands of tons of slush and dirt, alive, but doomed to death, beyond all hope of rescue. He has been imprisoned since 1 p. m. Saturday, when he fired a blast which caused a cave-in extending to the surface, where the slush banks are situated.

Killed By Saloonkeeper.

Chicago, Nov. 11.—Joseph Vaciema, 17 years old, was shot and killed by John Fiala in front of the latter's saloon at 809 West 18th street. John Nowaski, a companion of Vaciema, was wounded. Vaciema and Nowaski, with three other young men, created a disturbance in front of the saloon, and the proprietor, believing that he was about to be held up, attacked them.

Miners Gathering.

Joplin, Mo., Nov. 11.—A number of delegates and visitors arrived to attend the 11th annual session of the American mining congress, which will convene in this city Monday morning in sessions which are to continue through the week.

Chilean Port Fire.

Iquique, Chile, Nov. 11.—This port has been visited by a fire, the biggest since 1882, which has entailed losses amounting to over \$1,000,000. The property burned was mostly dwellings and no less than 2,000 people are homeless.

Resumed His Walk Westward.

Syracuse, N. Y., Nov. 11.—Edward Payson Weston, the veteran pedestrian who is walking from Portland, Me., to Chicago over the same route he covered 40 years ago, spent a quiet Sunday at his hotel in this city. He resumed his western trip at midnight.

Italy's Floods.

Rome, Nov. 11.—The rainstorms and floods throughout Italy continue. Rail road tracks are being carried away and reports are being received of the destruction of houses and the drowning of cattle. Several lives have been lost.

Habitual Constipation

May be permanently overcome by personal efforts with the assistance of the one truly beneficial laxative remedy, Syrup of Figs and Elixir of Senna, which enables one to form regular habits daily so that assistance to nature may be gradually dispensed with when no longer needed, as the best of remedies, when required, are to assist nature and not to supplant the natural functions, which must depend ultimately upon proper nourishment, proper efforts and right living generally, to get its beneficial effects, always by the genuine
